TECHNICAL SKILL

- C++ (Competitive Programming)
- Frontend: HTML, CSS
- Database: PostgreSQL
- Version Control System: Git

STRENGTH

- Teamwork and Cooperation
- Public Speaking
- Leadership
- Adaptability
- Time Management

EXPERIENCES

Science Olympiad Organizer:

Organized and coordinated my school-wide Science Olympiad. Managed event logistics, including scheduling, venue setup, and materials preparation. Promoted the event and encouraged student participation.

Member, Disciplinary Committee & Organizing Committee for “NGHS 55th Anniversary” Celebration:

Served as a member of the events disciplinary committee, contributing to maintaining event discipline and security. Participated in planning and executing my school's 55th anniversary celebration.

PROJECTS

HEMOSYS – BLOOD MANAGEMENT SYSTEM

Hemosys is my third semester full-stack project, and it is built on a blood management system. It's an interactive application. Aside from other characteristics, its main benefit is that it allows us to collect blood from donors and deliver it to patients. Patients can also request blood through our system and contact a donor. There are further features included

GitHub: <https://github.com/ibrahim3761/Project-Hemosys>

APPOINTMENT MANAGEMENT SYSTEM

Appointment management system is software built with data structure components such as sorting and linked lists that allows us to make simple appointment to make our daily life easy.
